

## **OFF-CAMPUS STUDY & EXCHANGES AND CAREER SERVICES** **INTERNATIONAL INTERNSHIPS**

Many students want to enhance an off-campus study experience by combining a study abroad with an international internship. When planning to do an internship abroad during the academic year, students must follow specific Off-Campus Study & Exchanges (OCSE) policies and procedures. Many of Skidmore College's approved off-campus study programs offer internship opportunities for academic credit (with departmental approval). Students interested in an international internship should contact OCSE or Career Services for more information or visit <http://cms.skidmore.edu/ocse/programs/internships.cfm>. Since each location is unique, it is important for students to learn about the specific guidelines and requirements for the program with which they plan to study.
