

1968 Scholar

Name: Casey Fish
Class Year: 2012
Hometown: Lake Placid, NY
Major: Psychology major with Business and Studio Art minors

My favorite thing about Skidmore College is...

One of my favorite things about Skidmore is the extremely warm and accepting student body and faculty. It's the perfect place to thrive as a student and as a person.

My favorite class/faculty member has been...

My favorite class has been my Scribner seminar, Imagine That, with Mary-Ann Foley. She is an incredible teacher and the class was fascinating. Professor Foley continues to be an excellent advisor.

Coming to Skidmore has changed me in the following ways...

Coming to Skidmore has changed me in that I am not only motivated but extremely excited about my areas of study. Psychology has not yet failed to fascinate me and the art studio has become my peaceful haven. I have also changed in that I feel more confident as a person and thrive on making new social interactions.

Thank you so much for the donations you have made to Skidmore College scholarship funds. Skidmore's financial aid has made it possible for me to attend this wonderful school and I thank you for your contribution. I am honored to be recognized for my academic work with this Class of 1968 Annual Fund Scholarship.
